The Great Motorhome Adventure Slide Show

Wednesday, January 10, 9:30 – 10:45 a.m.

What do you get when you combine two photographers, an 18,000-mile cross-country trek, and a 21-foot camper? It's the Great American Motorhome Adventure.

In September of 1986 Richard Knight and his late wife, Elizabeth, set out from Maine and headed westward across Canada. Seven months later they arrived in the southernmost tip of the United States in Key West, Florida.

This nostalgic, two-screen presentation showcases the breathtaking scenery and amusing adventures this talented couple captured on film during their journey.

Join us for a special lunch after the show.

Miles, Meals & Memories Lunch

** Though not native to Maine, tomato soup and grilled cheese were favorites of the Knights on the road. They were included in the menu in memory of Elizabeth Knight.*
