## Maine Alzheimer's Association Community Education Program –

Understanding and Responding to Dementia Related Behaviors

Behavior is a powerful form of communication and one of the primary ways people with dementia communicate their needs and feelings as the ability to use language is lost. However, some behaviors can present real challenges for caregivers to manage.

Join us to learn to decode behavioral messages, identify common behavior triggers, and learn strategies to help intervene with some of the most common behavioral challenges of Alzheimer's disease.

A heartfelt 

Celebrating our  
Volunteers

**TO OUR  
VOLUNTEERS**

Words are not enough to describe how grateful we are for the dedication, compassion, and generosity of the hundreds of individuals who have given of themselves to help fulfill the mission of Spectrum Generations.

Without our volunteers, we would not be able to accomplish all that we have! In

the month of April, we are recognizing the dedication and commitment of those volunteers who give their time to help their neighbors and communities.

We also want to express our gratitude for continually inspiring us to serve the older and disabled adults in central and midcoast Maine.

If you're not currently a volunteer, we have many opportunities for you to get involved! Please contact Amalia, our volunteer coordinator, at 620-1684 or [apdelpulgar@spectrumgenerations.org](mailto:apdelpulgar@spectrumgenerations.org)
