Money Savings Benefit Program

Definition of Terms

Liquid or cash assets include money in the bank, value of stocks and bonds, CD’s or anything that can be turned into cash.

Asset exclusion applies to interest earning accounts. Home & property it sits on and car do not count.

MaineCare (Medicaid) will pay most of your drug costs; pay your entire Medicare deductibles and co-pays, and some health care services not covered by Medicare.

Medicare Savings Programs
(QMB) Qualified Medicare Beneficiary pays your Medicare deductibles and co-pays, your Medicare Part B premium of $134.00 per month, and qualifies you for help paying your monthly premiums, deductibles and co-payments under the Medicare Prescription Drug Program.

(SLMB and QI-1) Specified Low Income Medicare Beneficiary and Qualified Individual-1 pays your Medicare Part B premium of $134.00 per month and qualifies you for help paying your monthly premiums, deductibles and co-payments under the Medicare Prescription Drug Program.

SNAP or Food Stamps gives you an EBT card with a cash value that you can use like money for groceries and Meals-on-Wheels donations. For seniors/persons receiving Social Security Disability, there is a maximum gross income. Maximum net income after allowable deductions determines eligibility.

Fuel Assistance helps to pay for your winter heating fuel, electricity, or wood/wood pellets bill and telephone (landline).

Low Cost Drug Program (DEL) provides a discount on prescription drug costs as much as 80% on some drugs if you are not receiving Medicare benefits. If you receive Medicare benefits, this benefit will help pay your monthly premiums, deductibles, and co-payments under the Medicare prescription Drug program as long as the State of Maine enrolls you in a “state contracted” Medicare Part D Prescription Drug plan.

Maine Rx plus Program provides a discount on prescription drug costs for some medications of approximately 15% off brand name drugs and 60% off generic drugs. Not all pharmacies participate in this program.
